

## SECTOR DEMOCRACY

This winter I mostly spent my free time to bolt this new sector, and there are now 46 routes there, from about 6a+ to maybe 8c+.

A very big thanks to the Municipality of South Kynouria for providing me the bolts to open all these nice routes !

### Location

From Leonidio center, drive about 15mn till the big parking of Limeri/ Blue mountain sectors. It's the crags you can see bellow the pilones.

### Approach

You will find the first routes to climb at 1mn 30sec walking distance and maximum 20mn for the highest sector. Follow the red marks starting on the left side of the route « Rehab center »/Liméri far left sector.

### Conditions

You can climb all day in the shade or find some sun on the upper walls.

### Climbing

There are short and powerfull routes with tuffas, long climbs up to 40ms, orange/red or grey old school slabs, mountain style corner and craks...

Grades could be harder or easier, as it is a new sector and there are many FA to do !
